PROGRAMME STRATEGY	<p>Our aim is to bring about change in underdeveloped and underprivileged communities through working with partners and pooling resources. In this way we hope to make a significant and sustainable impact in these communities. At all times we respect the knowledge and integrity of those we assist but we try to increase the capacity of our beneficiaries rather than maintain their ongoing dependence on us.</p> <p>To this end, building relationships with our beneficiaries, identifying their strengths and assets, visiting projects, and maintaining contact are vital components of our outreach. We constantly strive to hold our beneficiaries accountable for effective implementation of practice and procedure, but we recognise the difficulties and ongoing challenges that this still presents.</p>
